Epidermolysis Bullosa: Parts I and II

A special two-part review from **Dermatologic Clinics**

Guest Editor:

Dédée F. Murrell, MA, BMBCh, FAAD, MD

CONTENTS:

Part I – Pathogenesis and Clinical Features

Role of Dermal-Epidermal Basement Membrane Zone in Skin, Cancer, and Developmental Disorders
Mutation Mechanisms
Epidermolysis Bullosa Simplex
Plectin Gene Defects Lead to Various Forms of Epidermolysis Bullosa Simplex
Epidermolysis Bullosa with Pyloric Atresia
Herlitz Junctional Epidermolysis Bullosa
Collagen XVII
Non-Herlitz Junctional Epidermolysis Bullosa
Adhesion and Migration, The Diverse Functions of the Laminin $\alpha 3$ Subunit
Laryngo-onycho-cutaneous Syndrome
Type VII Collagen: The Anchoring Fibril Protein at Fault in Dystrophic Epidermolysis Bullosa
Dystrophic Epidermolysis Bullosa: Pathogenesis and Clinical Features
Kindler Syndrome Pathogenesis and Fermitin Family Homologue 1 (Kindlin-1) Function
Kindler Syndrome
Ectodermal Dysplasia-Skin Fragility Syndrome
Lethal Acantholytic Epidermolysis Bullosa
Animal Models of Epidermolysis Bullosa
Ophthalmic Involvement in Inherited Epidermolysis Bullosa
Nail Involvement in Epidermolysis Bullosa
Oral Manifestations in the Epidermolysis Bullosa Spectrum
Alopecia in Epidermolysis Bullosa
Understanding the Pathogenesis of Recessive Dystrophic Epidermolysis Bullosa Squamous Cell Carcinoma
Epidermolysis Bullosa Nevi
Quality of Life Measurements in Epidermolysis Bullosa: Tools for Clinical Research and Patient Care

Part II – Diagnosis and Management

How to Take Skin Biopsies for Epidermolysis Bullosa
Immunofluorescence Mapping for the Diagnosis of Epidermolysis Bullosa
Transmission Electron Microscopy for the Diagnosis of Epidermolysis Bullosa
Molecular Testing in Epidermolysis Bullosa
Prenatal Diagnosis of Epidermolysis Bullosa
Genetic Counseling in Epidermolysis Bullosa
Epidermolysis Bullosa Simplex with Muscular Dystrophy
Wound Management for Children with Epidermolysis Bullosa
Bathing for Individuals with Epidermolysis Bullosa
Infection and Colonization in Epidermolysis Bullosa
Tests to Monitor in Patients with Severe Types of Epidermolysis Bullosa
Pain Management in Epidermolysis Bullosa
Treatment of Skin Cancers in Epidermolysis Bullosa
Nutrition for Children with Epidermolysis Bullosa
Oral Care and Dental Management for Patients with Epidermolysis Bullosa
Epidermolysis Bullosa: Management of Esophageal Strictures and Enteric Access by Gastrostomy
Anaesthesia and Epidermolysis Bullosa
Podiatric Management of Epidermolysis Bullosa
Surgery of the Hand in Recessive Dystrophic Epidermolysis Bullosa
Genitourinary Tract Involvement in Epidermolysis Bullosa
Dilated Cardiomyopathy in Epidermolysis Bullosa
Osteopenia and Osteoporosis in Epidermolysis Bullosa
Growth and Pubertal Delay in Patients with Epidermolysis Bullosa
Gene Therapy for Recessive Dystrophic Epidermolysis Bullosa
Fibroblasts-Based Cell Therapy Strategy for Recessive Dystrophic Epidermolysis Bullosa
Bone Marrow Stem Cell Therapy for Recessive Dystrophic Epidermolysis Bullosa
Interdisciplinary Management of Epidermolysis Bullosa in the Public Setting: The Netherlands as a Model of Care
Epidermolysis Bullosa Around the World
